Precision Contract Machining Manufacturer

All Industries Served * Commercial * Government * Military

* Aerospace * Armament * Power Gen * Nuclear * OEM *

Precision Shapes, Inc. specializes in providing high quality precision parts
at competitive pricing - on time, every time

Capabilities:

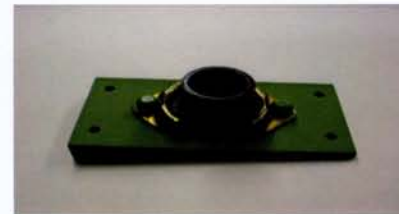

- Machined Small & Mid Size Parts
- All Metals & Alloys: including Inconel, Titanium, Stainless Steel, Alum, Copper & Plastics
- Long Length Continuous Milling in any lengths of intricate shapes - max: 40 FT. x 3" dia.
- Modification of standard extrusions & bar stock milled to close tolerances
- Hogout alternative to extruded, rolled or drawn bars (smaller runs, shorter lead times)
- CNC Machining, max: 60" x 26" x 26" working envelope
- Secondary Milling Operations, Drilling, Forming, Surface Grinding
- Specialized Deburring & Sandblasting
- Assembly
- Hardware Installation
- Kitting
- Outside Processing, testing, heat treating, finishes to customer specifications
- Tolerances regularly held to +/- .001"

Advantages of Using PSI:

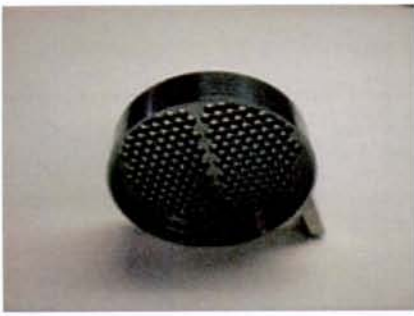

- ✓ Engineering Support
- ✓ Long Term Agreements
- ✓ Forecast & Release
- ✓ Kanban/JIT
- ✓ Complete Traceability
- ✓ Lead Time: Rapid response to customer requirements - large & small quantities
- ✓ Long Length Process: configurations incorporated into single handling of long bar rather than repeated handling of numerous smaller pieces
- ✓ Large & Small Production Quantities
- ✓ Epicor VISTA Job Software
- ✓ 100% Women Owned & Operated
- ✓ Established in 1941

Quality

- Assurance of Quality: AS9100 & ISO2001:2008 Certified
- Enhanced Inspection capability - Zeiss Contura G2 CMM
- Source Delegated Approved for various customers
- AS9102 Compliant Expert Quality Control - Documented Insp from Receiving thru In-Process to FAI
- High Quality Ratings: Long History of High Quality Parts, On Time
- Customer Satisfaction Guaranteed
